

# All-Angle Clamp

**NEW**  
From  
Mo-Clamp

This new multi-angle pulling clamp from Mo-Clamp allows a technician to use the smaller jaw width to access tough areas where other clamps normally will not reach. The attached bracket can be swiveled to accommodate pulling from any direction. The pull ring adds versatility to this clamp. Pulls can be made right-angle, straight, twist, roll, up and down.

Made of Mo-Clamp Tru-Tuff™ steel alloy in the USA and covered by the Mo-Clamp "forever" warranty.
