

135° Swiveling Pulling Power

from **mo-clamp**
Mo-Clamp®
Collision Repair Tools

The new 135° Swivel Clamp provides multi-angle pulling from a single clamp. Using Mo-Clamp's **severe duty angled tooth** design, this clamp allows the **drop forged round wedge** to move within the

clamp's channel to provide the **exact angle** of pull needed – while allowing it to pivot to avoid twists in the chain. With a **throat depth of 2"**, you can reach into areas and be assured of a secure pull.

#0480 135° Swivel Self-Tightening Clamp

Specifications:

Overall length: 5" (127mm)

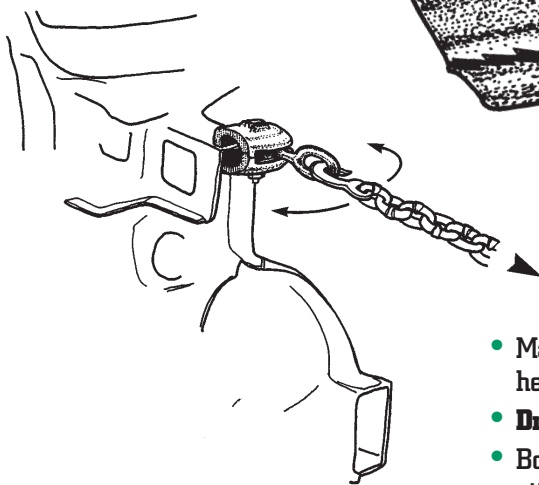

Weight: 5.7 lbs (2.6 kg)

Capacity: 10 tons (9,080 kg)
