

THE NEW "Twin Claw"™

from **mo-clamp**
Mo-Clamp®
Collision Repair Tools

The new MoClamp® "Twin Claw"™ self-tightening clamp is a 7 ton rated tool for very tough pulls. Made of MoClamp® Tru-Tuff, heat treated steel alloy. The Twin Claw™ jaws and drop forged pulling wedge distribute the clamping load – reducing the possibility of metal tearing – with an offset horizontal severe duty tooth design for maximum gripping bite and minimized metal distortion. The jaw openings allow use around lips of core supports and aprons, clamps to floor pans and a myriad of

other pulls. Twin Claw™ can be combined with a cable sling for multi-directional pulls. Designed using the latest methods to provide you a **strong, lightweight and functional tool.**

#0440 Twin Claw™ Self-Tightening Clamp

Specifications:

Overall length: 8" (203 mm)

Weight: 8 lbs (3.63 kg)

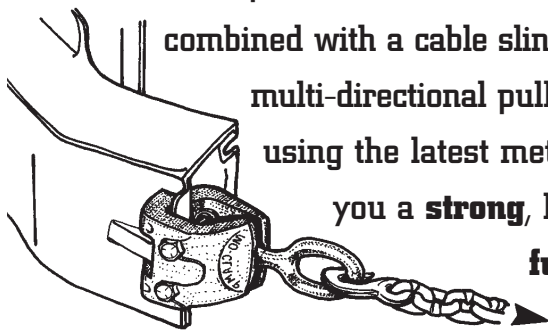

Height: 3 Inches (76 mm)

Capacity: 7 tons (6,356 kg)

Replacement Parts:

010701 Small wedge
